

InfrasoftTech's Chatbot Solution "Kiya.ai" featured in NASSCOM's Research Report

Mumbai, India, Nov 21, 2018 – [InfrasoftTech](#), a global specialist in Fintech solutions, has been highlighted in the [NASSCOM](#) latest report on chatbot titled '[Let's Chat – AI Based Conversations](#)'. The report has been developed by NASSCOM to analyse and comprehend the present chatbot landscape in India. It provides insights and trends on the Artificial Intelligence (AI) market casing how technology advancements are leading to the adoption of chatbots across different industries and business sectors.

Currently, businesses are concentrating on solutions that reduce costs and have the potential to revolutionise the business sphere. Chatbot, a promising solution, not only provides innovation and personalised customer service to the end consumer but also automates mundane and repetitive data processing tasks. Customer services segment has the highest adoption of chatbot due to the precision, speed and personalised response it offers.

"The objective of this report is to identify market drivers, develop a thorough understanding of chatbot landscape and acknowledge the innovative market players in India, says **Rakesh Kumar, Director (Research) at NASSCOM**. He further added that the report assessed India as one of the most attractive markets for chatbots and is positioned third in the world after the US and Europe in terms of total funding of USD 90 million in 2017".

In the report, NASSCOM mentioned, "Chatbots are one of the most transformational use cases of AI and is expected to reach maximum adoption in next two to five years". The report has featured chatbot solution case studies from leading IT/BPM firms as well as start-ups highlighting innovation and application of chatbots.

"We are excited to be featured in the NASSCOM research report on chatbot", says **Anil Mookoni, Head Digital Payments & Solutions, InfrasoftTech**. "Our solution "Kiya.ai", is an omnichannel platform enabled with Artificial Intelligence (AI) and Machine Learning (ML) technologies to automate and enhance the banking engagement and customer relationship".

InfrasoftTech chatbot solution, a part of Kiya.ai platform has a conversational interface enabled with cognitive computing and NLP/NLG algorithms to analyse, predict and deliver highly personalised insights to the consumer in real-time along with the ability to understand the emotions and intent of communication.

Our Kiya.ai omnichannel platform includes:

- Chatbot
- Contact Management Bot
- Training Bot
- Fraud Detection Bot
- Voice Bot
