

InfrasoftTech Enters into Partnership Alliance with Tableau for EMEA Market

April 11 2017 Mumbai: India, Infrasoft Technologies Ltd a leading Fintech digital solutions provider, delivering solutions to Banking and Financial Services firms, takes pride in announcing today that it has entered in an Alliance Partnership with Tableau, a global leader in rapid-fire, easy-to-use visual analytics software, spanning the EMEA market.

InfrasoftTech, a market leader in Core Banking and a specialist service provider on data management services, addresses the key challenges of data management and analytics through a comprehensive product, services and digital offerings. Combined with Tableau will be able to deliver insights to BFSI institutions which will transform the way individuals and enterprises will use data for competitive advantage. With Tableau Software's cutting edge platform and enterprise wide capabilities, in addition to Infrasoft's vertical expertise and trusted advisor status, the partnership enables effective business decisions, robust performance and ultimately competitive advantage in the dynamically evolving environment.

"We are delighted to sign the partnership alliance with Tableau. We will leverage this opportunity by integrating Tableau's software into our cutting edge solutions to benefit our clients with the power of big data", says Mr. Rajesh Mirjankar, Managing Director & CEO of InfrasoftTech.

"Infrasoft brings a wealth of experience, knowledge and reputation to their customers in a highly competitive industry," said Tim Darch, Manager Channel UK, Tableau Software. *"We look forward to working to with the wider team to develop digital solutions for the New Generation of Financial Services. This will allow our mutual customers to benefit from deep vertical expertise leveraging emerging technologies to achieve deep analytical capability and become more data driven."*
