

PRESS RELEASE

InfrasoftTech positioned in Chartis Credit Risk Solution Quadrant

- [InfrasoftTech](#) placed in the Enterprise Solution category for banking book operations

Mumbai, India, Sept. 12, 2018 - [InfrasoftTech](#), a leading digital solution provider for the Banking and Financial sector, has been recognized by independent research firm Chartis in its report "[Technology Solutions for Credit Risk 2.0](#)". The report positions vendors for both banking and trading book operations, assessing the functionality of their risk-management technology platforms.

As the technology landscape is evolving, risk responsibilities have intensified at financial services companies. Companies worldwide are focusing more towards risk management technology as it focuses not only on security and safety but also on country-specific compliance laws.

"We are honoured to be recognized by Chartis for our strong enterprise capabilities and risk management solutions", says [Rajesh Mirjankar, Managing Director & CEO](#) at InfrasoftTech. "Our cognitive RiskTech solutions powered by AI and RPA technologies enable firms to assess insights and manage risk exposures in real-time helping them to make smarter business decisions."

Chartis' Credit Risk 2.0 report is a key tool for gaining insights into the leading RiskTech vendors in the market. "We evaluate vendors worldwide on their RiskTech capabilities and market potential," said [Rob Stubbs, Head of Research at Chartis](#). "InfrasoftTech's rating in our Credit Risk report reflects its investment in risk technology innovation and its focus on market needs".

InfrasoftTech RiskTech solution suites are powered with AI and RPA technology and leverage cognitive computing to accelerate and enhance risk and fraud assessment for banks, insurance firms and NBFCs. Our solutions suite includes:

- [OMNIEnterprise Anti-Money Laundering Solution](#)
- [OMNIEnterprise Anti-Fraud Solution](#)
- [FATCA Reporting Service](#)
- Governance, Risk & Compliance (GRC) Solution
